Experience in working with a particular sector of the community

XXX is made up of highly experienced, well-qualified and culturally-competent XXXX community workers with more than 50 years' collective experience supporting vulnerable XXXX people and families across Sydney. Our XXX Team also adds a further very strong series of networks, with collective knowledge and experience within the XXXX community stretching back many generations.

Our extensive networks also mean that one or more of our team may know the XXXX families involved in a particular case. This personal understanding of the family dynamics and relationships gives us a distinct advantage when working with XXXX children and families, and empowering XXXX people.

XXX is focused on empowering communities, giving XXXX children and young people opportunities to build their aspirations and be motivated to learn; increasing their likelihood of achieving their hopes and dreams.
